Cine-tal and The Media Village presents Color Management Training program at Broadcast Asia in Singapore

Two day training course in color management for DI, VFX and video professionals to be held June 16th and 17th at the Singapore Expo in conjunction with Broadcast Asia.

INDIANAPOLIS, June 1 - Cine-tal Systems, a developer of image monitoring and color management solutions and Media Village announce a Color Management Training class for June 16th and 17th at Broadcast Asia in Singapore. The two day class will provide participants with a working knowledge in color management for digital film & video production, digital intermediate (DI) & video post production, visual effects (VFX), HD & film print dailies, as well as digital projection. The class is lead by Cine-tal's Michael Chenery, a leading expert in color science for the digital cinema and video industry.

Professionals in the video and feature film industry responsible for quality control of color across the entire production / post-production workflow should attend, including:

- VFX production supervisors
- VFX artists
- DI Post-production engineers
- CGI/VFX software developers
- Digital Imaging Technicians (DITs)
- Colorists

Participants will receive an introductory background into color science and color theory and color models including XYZ, RGB and YCbCr, XvYcc. Participants will also learn about, gamma, logarithmic and linear encoding including Rec709, RedLog, Panalog, ArriLog, FilmStream and sLog. The two day course features hands on practice of transforming data between color models, profiling display technology including digital projection, building look up tables (LUTs), and implementing color management practices taught during the three day course.
